

REITWAY GLOBAL PROPERTY PORTFOLIO (MLT)

Detailed Information Sheet

Month ending 31 October 2017

The Investment Opportunity

The Reitway Global Property Portfolio, which has been approved by the Malta Financial Services Authority, offers a seamless exposure to a portfolio of distribution-producing global real estate securities. The fund is a Malta domiciled, US dollar-denominated collective investment scheme investing in REITs and property-related securities. While the securities are largely located in the developed markets of North America, Europe, Australia and Asia, the fund does not exclude exposure to developing economies where compelling investment opportunities present themselves.

Portfolio objectives

The fund's primary objective is to generate high current income, however investors will reap the inherent benefits of capital appreciation that come with real estate assets. The portfolio may be invested in global real estate securities and property-related securities. The portfolio's property exposure will always exceed 75%.

Experienced investor requirements

An investor in the fund needs to display a required level of investment experience. The investor must:

- have worked as a professional in the financial sector for at least one year; or
- have reasonable experience in the acquisition and disposal of funds of a similar nature, risk profile, or exposure to property; or
- have carried out investment transactions of a defined size and frequency*

*A guideline to the meaning of "defined size and frequency" is a person with sufficient investment experience and knowledge to weigh the risks and merits of an investment opportunity, who within the past 2 years carried out transactions amounting to at least EUR 50,000 at an average frequency of 3 per quarter

Only applications by investors that comply with the experienced investor requirements will be considered.

Benefits of investing in the fund

The fund is the essence of diversification and liquid global real estate securities that offers: -

- Attractive yields
- Geographic, sector and currency diversification
- Long-term capital appreciation
- Tax optimization
- Moderate volatility

Property Sector Diversification

Risk Profile*

Reitway Global reviews its individual portfolio components and assigns a quantitative risk rating on a monthly basis.

The rating is based on the Beta* of each security in the portfolio relative to the FTSE 100 Index.

*Beta is a measure of the systematic risk of a security in comparison to the market as a whole.

* Time frame: February 2012 to present

DISCLAIMER:

Collective Investment Schemes (CIS) in securities are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. All CIS are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commissions is available on request. Commission may be paid and if so, would be included in the overall costs. A fund of fund portfolio is a portfolio that invests in portfolios of collective investment schemes, which levy their own charges, which could result in a higher fee structure for these portfolios. Forward pricing is used. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. BCI Collective Investments Limited reserves the right to close and reopen certain portfolios from time to time in order to manage them more efficiently. The Fund may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. Different classes of participatory interests apply to certain portfolios, which are subject to different fees and charges. Performance figures quoted are from Morningstar/MoneyMate, as at the date of this factsheet for a lump sum investment, using NAV-NAV prices with income distributions reinvested. Service charges and investment manager charges are calculated and accrued on the daily marketed value of the investment and paid out monthly. BCI Collective Investments Limited is the Manager of the BCI Collective Investments Scheme, and a full member of the Association for Savings and Investment SA. Although reasonable steps have been taken to ensure the validity and accuracy of the information in this document, BCI Collective Investments Limited does not accept any responsibility for any claim, damages, loss or expense, howsoever arising, out of or in connection with the information in this document, whether by a client, investor or intermediary. This document should not be seen as an offer to purchase any specific product and is not to be construed as advice or guidance in any form whatsoever. Investors are encouraged to obtain independent professional investment and taxation advice before investing with or in any of BCI Collective Investments Limited's product. RReitway Global is registered with the Financial Services Board as a financial services provider (License No. 43747 Category I & II).
