

Reitway Global lists an Actively Traded Note on the JSE

Reitway Global has taken the initiative to list a new vehicle, namely an Actively Advised Note on the Johannesburg Stock Exchange (JSE). The Actively Advised Note replicates an internationally competitive and proven investment process.

The Reitway Global investment team has delivered a credible risk adjusted performance with low volatility and correlations to other asset classes over an eight-year period. These being ideal ingredients for the construction of an investment portfolio.
